Profile

I'm a technology-driven problem solver passionate about creating learning systems that adapt and improve. With hands-on experience in Python, deep learning, and modern web technologies I aim to design AI-powered solutions that bridge logic with creativity.

Education

- Panipat Institute of Engineering & Technology, Artificial Intelligence and Machine Learning Computer Engineering. Aug 2022 – Aug 2026
- Kotwal National Institute of Teaching school. March 2018 – March 2022

Core competencies

- **Languages:** C, C++, Python, JavaScript, SQL
- **Web & Backend:** React.js, FastAPI, HTML, CSS, REST API, JWT
- **Machine Learning & AI:** Scikit-Learn, TensorFlow, NLP, Model Evaluation, Data Analysis
- **Database & Tools:** SQL, Git, Web Scraping, Power BI
- **Concepts:** Authentication, RBAC, Full-Stack Development, Problem Solving

Projects

Learning Engineer | Heart Disease Survival Prediction Framework

- Developed survival prediction model using LightGBM, IPCW weighting, Scikit-Learn, cross-validation, calibration, and AUC-based evaluation for clinical risk forecasting.

AI Engineer | AI Career Skill Intelligence Platform (Full-Stack + ML + Scraper)

- Developing AI platform using FastAPI, React, PostgreSQL, ML models, job scraping, skill ranking, trend analysis, and dashboard visualization for career prediction.

Backend Developer | Industry-Level Authentication & Access Control System

- Designed secure authentication backend using FastAPI, JWT, refresh tokens, RBAC, password hashing, middleware validation, protected APIs, and session management.

AI Developer | AI Voice Receptionist (Speech-to-Speech AI Assistant)

- Built voice AI assistant using Speech-Recognition, NLP, Text-to-Speech, Python AI libraries, and conversation pipeline for automated query handling and response generation.

Certifications & Achievement

- Machine Learning with Python Internship – **EISystems Technologies**
- Hackathon Participant – **HackOps, Savisjar (2024)**
- Machine Learning Research Intern – **NIT Delhi (2025)**
- Advanced Diploma in Software Technology (12 Months) – **Supertech (India) Computer Education.**
